This analytical piece examines the contextual factors, underlying causes, and broader consequences of the performance trends observed.

Contextual Backdrop: Education During a Pandemic

2021 marked a year of significant disruption in Malawi's educational sector. The ongoing COVID-19 pandemic led to prolonged school closures and shifts to remote learning modalities that were unevenly accessible across urban and rural areas. This disparity introduced new variables affecting student performance and equity in education.

Performance Metrics and Statistical Overview

Data released by MANEB indicate a mixed performance landscape. While the overall pass rate showed slight improvement in certain subjects such as mathematics and sciences, the general pass rate experienced a modest decline relative to pre-pandemic years. The analysis reveals that students with better access to learning resources fared significantly better, highlighting persistent inequalities.

Factors Influencing Examination Outcomes

The causes of the observed trends are multifaceted. The abrupt transition to remote learning exposed infrastructural deficits, including limited internet penetration and lack of digital devices.
