Wars are typically measured by their intensity, casualties, or political significance. However, duration is an equally compelling metric. The longest wars in history are not always continuous battles but often include periods of uneasy peace, shifting alliances, and evolving objectives.

These drawn-out conflicts sometimes reflect deep-rooted rivalries and complex geopolitical landscapes.

The Hundred Years' War: A Century of Turmoil

Widely regarded as the longest continuous conflict in recorded history, the Hundred Years' War spanned 116 years, from 1337 to 1453. The war's origins lay in territorial disputes and claims to the French throne, which entangled European powers in a protracted struggle.

Key Phases and Turning Points

The war can be divided into several phases: the Edwardian Era War, the Caroline War, and the Lancastrian War. Each phase saw fluctuating fortunes for both sides, with notable events such as the Battle of Agincourt, the rise of Joan of Arc, and shifts in military tactics.

These phases included periods of peace and negotiation, but the underlying conflict persisted due to unresolved claims and nationalistic fervor. The war ultimately ended with the English losing most of their French territories, marking a significant shift in medieval European power.
