How to Create an Experience on Roblox via Mobile

Creating a new experience is straightforward, even on a phone. After logging into your Roblox account, navigate to the creation tab on the dashboard. Here, you can start a new project or edit an existing one. The mobile interface supports essential features such as uploading game assets, configuring game settings, and publishing updates.

While the desktop version offers a more extensive toolkit, the mobile dashboard provides enough functionality to manage your creations effectively, making it easier for creators who are often away from a computer.

Dashboard Functionality on Mobile Devices

The mobile dashboard offers features such as game updates, analytics monitoring, community management, and monetization settings.
