Font size, font style, and line spacing adjustments also play a significant role in reading comfort. Increasing font size and spacing improves readability and reduces visual stress, particularly on smaller screens. Many reading applications allow users to customize these settings, ensuring that What Going On Today remains comfortable to read across different devices and environments.

Highlighting and annotating key sections transforms passive reading into an active learning process. By marking important concepts, definitions, or arguments, readers engage more deeply with the content. Annotations allow users to add personal insights, questions, or reminders directly alongside the text, making future reviews more efficient and meaningful.

Taking regular breaks is another important factor in enhancing reading experience. Prolonged screen exposure can lead to eye strain and reduced concentration. Following structured reading intervals—such as reading for a set period and then resting—helps maintain mental clarity and physical
