The Basic Word for Cousin in Spanish

In Spanish, the word for cousin is **primo** for a male cousin and **prima** for a female cousin. Spanish, being a gendered language, makes this distinction clear in everyday speech. So, when referring to a male cousin, you would say "mi primo," and for a female cousin, "mi prima."

Pronunciation and Usage

"Primo" is pronounced as *PREE-moh*, and "prima" as *PREE-mah*. These terms are widely used across Spanish-speaking countries and are essential vocabulary for family discussions.

Extended Family Terms and Variations

While "primo" and "prima" are standard, Spanish also has specific terms for different types of cousins or relatives that might differ by region or context. For example, some speakers may specify "primo hermano" or "prima hermana" to indicate a first cousin specifically, literally meaning "sibling cousin." This helps clarify the closeness of the family relationship.
