The USMLE Step 1 exam has long been a cornerstone in the medical licensing process within the United States. In 2023, the scheduling and administration of this critical exam have continued to evolve, reflecting broader changes in testing logistics and medical education.

Context: The Shift to Year-Round Testing

Historically, the USMLE Step 1 was offered during specific testing windows each year. However, in recent years, the exam transitioned to a year-round testing model, a change that has been fully embraced in 2023. This shift was intended to provide greater flexibility for examinees and reduce bottlenecks at test centers.

This approach aligns with the growing demand for more accessible and patient-centered examination processes, especially amidst global disruptions such as the COVID-19 pandemic.

Causes: Increasing Demand and Technological Advancements
