The Plot Summary

The novel begins with the framing narrative of Captain Robert Walton, who is on an expedition to the North Pole. Walton's letters to his sister introduce the central character, Victor Frankenstein, a young scientist who becomes obsessed with the idea of creating life. Through Walton's interactions with Frankenstein, we learn the tragic story of Victor's creation and the devastating consequences that follow.

Victor Frankenstein, a brilliant but ambitious student at the University of Ingolstadt, becomes consumed by the idea of defeating death and creating life. After years of intense study and experimentation, he succeeds in animating a creature assembled from various body parts. However, the sight of his creation fills him with horror and disgust. Abandoning his creation, Victor retreats into isolation, leaving the creature to fend for itself.

The creature, initially innocent and curious, is shunned by society due to its grotesque appearance. Rejected and alone, it turns to violence, seeking revenge against its creator. The creature's actions lead to a series of tragic events, including the deaths of Victor's loved ones. The novel culminates in a chase across the icy landscapes of the Arctic, where both creator and creation meet their fate.
