In countless conversations, the subject of the Prophecies of St Malachy surfaces as both a historical curiosity and a theological enigma. Presented as a set of cryptic predictions concerning the succession of popes, these prophecies have stirred debate about their authenticity, origin, and implications for the Catholic Church.

Historical Context and Authorship

The prophecies are traditionally attributed to St Malachy, an influential Irish Archbishop who lived in the 12th century. According to

legend, he received a vision during a visit to Rome in 1139, wherein he foresaw the future popes through a series of short Latin mottos. However, scholarly examination reveals that the earliest known manuscript listing these prophecies dates only from the late 16th century, raising questions about their provenance.

Arguments Regarding Authenticity

Critical analysis suggests the prophecies might have been forged around 1590, possibly as a political tool during the papal conclave. Yet, proponents argue that the detailed correspondence with earlier popes supports genuine prophetic origin.
