Your cursor changes over interactive objects – click on these to collect clues, items, or trigger puzzles. Inventory at the bottom holds collected items that you may combine or use later.

Step-by-Step Walkthrough

1. Initial Exploration

Start by scanning the room thoroughly. Look for anything unusual, like objects that don't seem to belong or anything with numbers or symbols. In Salt Lake City Escape, you might find a map, a locked drawer, or a mysterious note.

2. Solving the First Puzzle

Often, the first puzzle involves finding a code to open a locked box or drawer. This could be hidden in a painting or a calendar. Pay attention to dates or numbers in the environment as they frequently hint to the code.

3. Using Collected Items

Items collected can be combined or used on other objects. For example, a key you find may open a cabinet, revealing a new clue or puzzle. Experiment by dragging items from your inventory to objects in the room.

4. Math-based Challenges

True to Hooda Math™'s style, some puzzles require solving math problems. These can range from simple arithmetic to recognizing number patterns or geometry puzzles reflecting real-life Salt Lake City landmarks.

5. Final Escape

After solving all puzzles, you'll gain access to the exit door or unlock the final mechanism. Don't rush! Make sure to have explored every interactive element to avoid missing crucial steps.

Tips for Success

1. Stay patient: Some puzzles can be tricky and require thinking beyond the obvious.
2. Take notes: Writing down codes or patterns helps avoid repeated backtracking.
