Step-by-Step Walkthrough

Step 1: Examine the Phone

The first thing you should do is closely inspect the phone mounted on the booth wall. Notice the keypad and any unusual markings or buttons that might be interactive. Sometimes, dialing a specific number or pressing a sequence of buttons triggers a response.

Step 2: Collect Coins

Look around the booth floor and inside compartments for coins. These coins could be essential to operate

the phone or other devices inside the booth. Make sure to collect every coin you find.

Step 3: Analyze Clues

Pay careful attention to any numbers, symbols, or notes that you find inside the booth. They often provide hints for combination codes or sequences needed to unlock certain mechanisms.

Step 4: Use Items Strategically

Once you've gathered the items and clues, consider how they might interact. For example, coins might be inserted into the phone to enable calls or reveal hidden compartments. The clues might suggest a phone number to dial or a button sequence to press.
