Who Makes Corona Beer? A Closer Look at the Iconic Brew

Every now and then, a topic captures people's attention in unexpected ways. Corona beer, known worldwide for its crisp taste and signature lime wedge, is one such subject. But who actually makes this iconic beverage that has become synonymous with beach vacations, relaxation, and good times? Let's dive into the story behind the makers of Corona beer.

The Origins of Corona Beer

Corona beer originated in Mexico, first brewed in 1925 by Cervecería Modelo in the city of Mexico. Since then, it has grown into one of the most recognizable beer brands globally. The original recipe and production methods have helped maintain Corona's distinctive flavor profile, loved by millions.

Grupo Modelo: The Original Brewer

For decades, Corona beer was brewed by Grupo Modelo, a Mexican brewing company established in 1925. Grupo Modelo developed and expanded Corona's presence beyond Mexico's borders, exporting it to the United States and many other countries. The company's dedication to quality and branding helped Corona become one of the top-selling beers worldwide.

Corona's Acquisition by Anheuser-Busch InBev

In 2013, the global beer market saw a major shift when Belgian-Brazilian company Anheuser-Busch InBev (AB InBev) acquired Grupo Modelo. This acquisition made AB InBev the world's largest brewer, controlling numerous international brands, including Corona. While Grupo Modelo continues to operate in Mexico, the global distribution and marketing of Corona are now handled by AB InBev.

Production and Distribution Today

Today, Corona beer is brewed in several locations, primarily in Mexico under the Grupo Modelo umbrella, but with AB InBev managing worldwide distribution. This ensures the beer maintains its authentic Mexican taste while reaching consumers globally with consistent quality. The partnership between Grupo Modelo's brewing expertise and AB InBev's global logistics network creates a seamless production and supply chain.

Why Does Corona Use a Lime Wedge?

The tradition of serving Corona beer with a lime wedge is believed to have started in the United States. The lime complements the light, crisp flavor of Corona and adds a refreshing zest that enhances the drinking experience. While not originally part of the brewing process, this serving style has become an iconic and inseparable part of Corona's brand identity.

Conclusion

Corona beer's journey from a Mexican brewery to a global phenomenon is a fascinating tale of tradition, quality, and strategic business moves. Originally brewed by Grupo Modelo and now owned by Anheuser-Busch InBev, Corona continues to enjoy worldwide popularity. So next time you enjoy a cold Corona with a lime wedge, you'll know the story behind the makers of this legendary beer.
