Theoretical Foundations and Frameworks

Power and Its Multidimensionality

A central theme in Heywood's analysis is the multifaceted nature of power—military, economic, cultural, and soft power—and how these vectors interact in global politics. The book dedicates significant attention to the function and efficacy of international organisations such as the United Nations, the World Trade Organization, and regional bodies. Heywood interrogates their ability to manage transnational issues, enforce norms, and mediate conflict, while also recognizing their limitations and the political contestations they face.

Ideological Contours of Global Politics

Heywood's integration of political ideologies into the analysis offers a vital perspective on how belief systems inform policy decisions and global agendas. By examining liberalism, realism, constructivism, feminism, and post-colonial critiques, he provides a comprehensive understanding of the intellectual battles that influence international conduct.
