This article analyzes the context, causes, and consequences of this trend.

Context: The Rise of Character-Based Learning Tools

In the digital age, children's media characters have become powerful influencers in shaping behavior and learning. Bluey, an Australian animated series focusing on family life and imaginative play, has gained international acclaim. Its appeal extends beyond entertainment into educational domains, inspiring themed products including potty training charts.

Cause: Why Bluey?

The choice of Bluey as the focal point for potty training tools is not incidental. Future research could explore longitudinal effects of such tools on autonomy and behavioral regulation. Additionally, expanding diversity in character representation might enhance inclusivity and relatability.

Best practices for collaborative use

To ensure smooth collaboration, users should define roles and expectations in advance.
