highlighting the contrast between appearance and reality.

Characters as Archetypes

The characters in "Through the Looking-Glass" can be seen as archetypes representing different aspects of human nature. The Red Queen, for example, embodies the struggle for power and the constant need to run just to stay in place. The White Queen, on the other hand, represents innocence and the potential for growth and change.

The Role of Nonsense

Carroll's use of nonsense in the story is not merely for entertainment; it serves a deeper purpose. The nonsensical dialogues and situations challenge the reader's perception of logic and reason, highlighting the absurdities of the real world. This use of nonsense is a critique of the rigid logic and rules of Victorian society, which often stifled creativity and individuality.

The Journey of Alice

Alice's journey through the looking-glass is a metaphor for the challenges and transformations one faces as they grow older. The story explores themes of

identity, growth, and the transition from childhood to adulthood. Alice's encounters with various characters and situations force her to confront her own beliefs and values, leading to a deeper understanding of herself and the world around her.
